Experience

ADORE   June 2025 - Present | Remote
Web Development Intern   *React, JavaScript, HTML, CSS, Git*

- Developed responsive web pages with React, boosting website performance by 20%.

Projects

Blogify   May. 2024
A Bloging Website   *Express , Node JS , Mongo DB , JWT , ByCrypt , Multer , EJS*

- Developed a dynamic blogging platform using Node.js and Express, integrating JWT authentication and bcrypt for secure user interactions.
- Implemented CRUD operations and optimized data management techniques, leveraging multer for efficient file uploads and achieving a 20% reduction in latency.
- Enhanced user engagement with features like commenting and post liking, utilizing performance optimization strategies and ensuring a seamless user experience.

YouTube Clone

Personalized YouTube Clone Web Application   *React, React-Router-DOM, Context-API, Git, REST API*

- Enhanced User Engagement: Boosted engagement by 20% through a personalized YouTube Clone using React and REST API..
- Optimized Performance: Improved page load times by 30% with seamless navigation and state management via React Router and Context API.
- Increased Video Watch Time: Achieved a 25% increase in video watch time by integrating YouTube Data API for real-time streaming and styling with Tailwind CSS.

CryptoNexus

Real-Time Cryptocurrency Tracker   *React , Context API , React Router DOM , Google Chart*

- Developed a real-time cryptocurrency tracker app using React, improving user retention by 15
- Utilized React Router and Context API for efficient state management and navigation, reducing state management errors by 40%..
- Integrated Google Charts for data visualization and CoinGecko API for live cryptocurrency data, enhancing data accuracy by 35%

Travel Gennie

Travel Genie: AI-Powered Personalized Travel Planner   *React,React-Router-DOM, Context-API, Firebase*

- Developed a responsive travel planning app using React and Tailwind CSS, increasing planning efficiency by 30%.
- Integrated ChatGPT API to generate custom travel itineraries, enhancing user satisfaction by 25%.
- Implemented Firebase for robust backend support, including database, storage, and multi-user authentication

Education

Primpri Chinchwad College Of Engineering (PCCOE)   Expected graduation: Jun. 2025
B.TECH. in Information Technology   *CGPA: 7.9/10*
Relevant Courses:
 C++, Object Oriented Programming, Computer Networks, Data Structures and Algorithms, DBMS, Operating Systems

Profile

Motivated MERN Stack Developer with a solid foundation in C++, MySQL, and version control systems. Skilled in building dynamic web applications using MongoDB, Express.js, React, and Node.js. Proficient in modern tools like Redux Toolkit, Bootstrap, and Tailwind CSS. Adept at creating efficient user experiences and transforming complex requirements into user-friendly solutions. Eager to contribute to innovative projects and collaborate with forward-thinking teams.

Skills

Languages:
 C++ , SQL , HTML , CSS , JavaScript

Technologies & Tools:
 MongoDB , Express , React , Node JS, Git , Multer , JWT , Redux, Bootstrap, Tailwind CSS, Firebase , Postman, Vercel , Netlify
